

Stephenson Group Acquires Lincoln Logs

Chestertown, NY - March 26, 2009 - The Stephenson Group purchased the Operating Division of The Original Lincoln Logs Ltd on March 6th 2009.

The Stephenson Group, established in 1985 under the leadership of Larry Stephenson is based in Riparius, NY. The Group's other holdings include (3) retail stores which offer a variety of building materials and hardware products. The Company also operates a roof & floor truss manufacturing facility; all holdings are located in the Southern Adirondacks of New York.

Lincoln Logs is a manufacturer of high quality log and panelized home packages and has delivered over 10,000 home packages world wide since their inception in 1977. Lincoln Logs will continue to manufacture both log and panel products at the manufacturing facility in Chestertown, NY, which will continue to serve as the company's national headquarters.

The combination of Lincoln Logs and the other Stephenson Divisions will strengthen the entire Group's holdings. The five divisions working as a team will create a stronger company as a whole, which should allow for additional job opportunities in the near future. The Lincoln Logs acquisition currently provides an additional 25 jobs in the area.

Lincoln Logs will continue to maintain corporate sales presence at the model home located in Lake George, NY as well as their group of authorized dealer representatives throughout the United States.

Larry Stephenson's appreciation of log homes began early in life, as he grew up in a log home as a child. Larry looks back fondly of his childhood in the Northern Adirondacks and looks forward to the opportunity to allow others to realize a similar experience.
